DETAILED ACTION

This Office action is responsive to the amendment filed on 10/24/02.

1. Claims 17-30 and 34-37 are allowed and renumbered as 1-4, 7-9, 5-6, and 10-18, respectively.
2. The following is an examiner's statement of reasons for allowance: the prior art taken either singly or in combination fails to anticipate or fairly suggest: a) each of the individual devices having the first seal film provided on an upper part of a periphery thereof while leaving a lower part of the periphery thereof exposed, and a second seal film provided on the lower surface thereof, as recited in claim 17; b) making trenches in parts of the semiconductor wafer which lie between the chip forming regions, each trench successively extending from the upper surface of the semiconductor wafer to half a thickness of the dicing tape so as to form concavities in an upper portion of the dicing tape, as recited in claims 21 and 26; c) adhering a support tape to the upper surface of a seal film, polishing an upper surface of the seal film, and then cutting the seal film, peeling off the dicing tape from the lower surface of the wafer after adhering the support tape, polishing the lower surface of the wafer after peeling off the dicing tape, as recited in claim 29; d) making trenches by cutting in parts of the semiconductor wafer which lie between the chip forming regions, each trench successively extending to half a thickness of the rear seal film through a thickness of the semiconductor wafer from the

upper surface of the semiconductor wafer, as recited in claim 35; especially when these limitations are considered within the specific combination claimed.
